

# ENVIRONMENTAL POLICY

Guymer Bailey Architects Pty Ltd is committed to comply with the requirements of AS/NZS ISO 14001:2015 and continually improve our Environmental Management System to enhance environmental performance.

Within the context of our business and our work, we are committed to protecting the environment, preventing pollution and fulfilling applicable compliance obligations.

Our aim is to reduce our impact on the environment by monitoring our own activities and the amount of energy, waste and environmental impact that these create. We also endeavour to reduce the impact of our designs on energy use, waste and environmental impact during the lifespan of the design. We are committed to supporting all employees in Guymer Bailey Architects to expand and implement their understanding and knowledge of environmentally sustainable design measures.

## Management Team:

**Kavan Applegate**  
Director

**Phillip Jackson**  
Director
